Chapter 11 · Stage 5 — Build

Accurate as of August 2026. Carrier requirements, fees, and timelines change. Verify with your provider. The sequencing advice — register first — does not change.

Submit on day one. This runs on carrier time, not yours. It's the only part of the build you cannot compress.

COSTS — APPROXIMATE, AUGUST 2026

ITEM	COST	FREQUENCY
Brand — sole proprietor	~\$4	One-time
Brand — standard, with vetting	~\$48+	One-time
Campaign vetting	~\$15-17	Per campaign
Campaign monthly	~\$1.50-\$10	Monthly, varies by use case
Carrier surcharges	~\$0.003-\$0.005	Per message segment

Put this in your setup fee so it's never a line-item conversation.

THE THREE COMMON REJECTION CAUSES

1. Legal name doesn't match IRS records
2. Website has no SMS clause in the privacy policy
3. Sample messages don't match the stated use case

SAY IT ON THE SALES CALL

"First thing I do is get your messaging registered with the carriers. Takes about a week and it's out of my hands — but if we don't do it first, none of your texts get delivered. Most people find that out three weeks in."

Sets the expectation before it becomes a complaint, and shows you know something the last agency didn't.

Registration is not consent. Carriers agreeing to deliver your traffic has nothing to do with whether you had permission to send it. See asset 21.
