

SMS & Email Nurture Sequences

From **The OneVision Playbook** by Isaiah Wright · onevision asset vault Fill this in. Do not retype it out of the book.

Chapter 13 · Stage 5 → 6

Compliance first. SMS requires A2P 10DLC registration (asset 13) and documented consent (asset 21). Those are two different things. Registration gets your messages delivered; consent gives you the right to send them.

SPEED-TO-LEAD — FIRES ON SUBMISSION

``` [0 min · SMS from the business number] Hey {{first\_name}} — {{business\_name}} here. Saw you asked about {{service}}. Are you looking to get this done in the next couple weeks or further out?

[0 min · Owner notification — push + SMS] New lead: {{first\_name}}, {{service}}, {{phone}}

[2 min · Email] Subject: your {{service}} request Hi {{first\_name}} — thanks for reaching out about {{service}}. Easiest way to get you a quote is a quick visit. Here are our next openings: {{booking\_link}}

[5 min · No reply → automated call attempt]

[15 min · Still nothing → task to a human]

[1 hr · SMS, different angle] {{first\_name}} — one thing that helps us quote accurately: roughly how big is the {{job\_descriptor}}? Happy to give you a ballpark before anyone comes out.

[Day 1 · SMS] Still want us to take a look at the {{service}}?

[Day 3 · SMS — final] No worries if the timing isn't right. I'll stop here — just reply anytime if you want to pick it back up. {{business\_name}}

→ then long-term nurture ```

**STOP RULE:** any reply halts the whole sequence immediately and hands to a human. Build it, then test it by replying to your own test lead.

## APPOINTMENT REMINDERS

``` [On booking · SMS] You're booked, {{first\_name}} — {{day}} {{time}} with {{rep\_name}} from {{business\_name}}. We'll be calling from {{phone\_number}}. Reply RESCHEDULE if you need a different time.

[24 hrs out · SMS — automated, and say so] Automated reminder: {{business_name}} tomorrow at {{time}}. Reply RESCHEDULE if anything's changed.

[3 hrs out · SMS] Today at {{time}} — see you then. {{reschedule_link}}

[Day of · from a real number, written like a person] Hey {{first_name}}, {{rep_name}} here — heading your way at {{time}}. Anything I should know before I get there? ```

Two details that matter more than they look: 1. **Say the number you'll call from.** Pickup on unknown numbers is terrible; this fixes a chunk of it. 2. **Make rescheduling one tap.** Friction converts live opportunities into no-shows.

LONG-TERM NURTURE

Monthly, low-pressure, genuinely useful. Seasonal timing does most of the selling.

[Monthly · SMS or email] {{seasonal_hook}} — {{one_useful_thing}}. If you're thinking about {{service}} this {{season}}, we've got openings. {{booking_link}}

COMPLIANCE CHECKLIST BEFORE ANY OF THIS GOES LIVE

- [] A2P 10DLC brand and campaign approved
- [] Consent recorded: what the form said, when, from where
- [] Consent checkbox not pre-ticked
- [] STOP honored immediately and across **all** sending, not just this sequence
- [] HELP returns business name and contact
- [] Automated messages identified as automated
- [] Client's list interrogated before use — how collected, when, what they agreed to
